

Dear Sir/Madam,
Greetings from Vidyavihar !

We are approaching you with a request for financial support for major hardware equipments since CN will make suitable arrangements for software, training, overhead costs etc required to make the “Smart Class Rooms” operational to its optimum level for the students of Sheth C. N. Vidyavihar.

In changing landscape of education, technology plans for schools are vital blueprints. These plans are more than mere paperwork, they provide guiding framework to pave the way for a seamless future of learning. Implementing technology in schools plays a pivotal role in enhancing learning environments.

We aim to transform students by expanding their ideas, knowledge and capabilities, and should prepare them to think, act and even dream differently than what they achieve today. To meet the needs of the 21st century learners and to achieve the student outcomes described in NEP (National Education Policy) framework, CN Vidyavihar has decided to adopt a suitable curriculum that blends... i) thinking and innovative skills and ii) information, media, and ICT literacy. Hence, technology integration in school curriculum will engage today’s millennial students in techno-enhanced learning.

Recently, we were able to upgrade the facility at Computer Centre by installing the latest IT infrastructure with the support of CN alumni.

CN Schools, consist of 26 classrooms in English Medium and 56 classrooms in Gujarati Medium across all the grades of 1 to 12. We aim to equip these classrooms digitally in 3 years.

In this endeavour, we are looking forward for your valuable support to serve better quality education and facilities to the students of Sheth C. N. Vidyavihar.

Dr. Vaishali Shah
Director,
Sheth C N Vidyavihar

SHETH CHIMANLAL NAGINDAS VIDYAVIHAR

C. N. – Strives for Excellence in Education

Academic Initiatives by C. N.

(1) “Vidyavishesh” (Started)

A centre for educational excellence through Experiential Learning

Facilities: Atal Lab, STEM Lab, Language Lab, Environment lab (Aranya)

(2) Counseling Centre (Started)

A Centre for mental wellbeing

Facilities: A full time counselor, Advocacy & Awareness program, One to one counseling, Group counseling.

(3) Digital Infrastructure for Technology incorporation in education (in pipeline)

Training to the teachers – Students, - Infrastructure for pilot project is installed

Smart Classes to be developed

(4) Mentorship Program (in pipeline)

Aptitude test, Aptitude development, Personality development,

Life skill development, Career Counseling

A Path Breaking Initiatives (for incorporating technology by aiming)

- **Implementing pedagogy for digital teaching – learning**
- **Establishing quality standards for content & technology**
- **Developing online/digital teaching platforms & tools**
- **Designing & implementing online learning experiences**
- **Training teachers towards becoming quality online content creators.**

Advantages of Technology in Education through Smart Class

- **Enhanced Learning Experience**
- **Visual Aid and Concept Clarity**
- **Access to Updated Information**
- **Improved Teacher Effectiveness**
- **Global Connectivity and Collaboration**
- **Preparation for Future Careers**
- **Environmental Sustainability**
- **Parental Engagement**

Requirments

- English medium school , including vishisht varg has total 26 classes for grade 1 to 12.
- Gujarati medium schools from grade 1 to 12 : total 54 classes.
- Aiming to equip all the classrooms with digital infrastructure in 3 years.

Phase	Sr. No.	School	Smart Board	Desktop	Furniture	Total Price
One 2024-25	1	CN English Medium School	13	13	13	20,80,000
	2	CN Gujarati Medium Schools	17	17	17	27,20,000
Total						48,00,000
Two 2025-26	1	CN English Medium School	13	13	13	20,00,000
	2	CN Gujarati Medium Schools	17	17	17	27,20,000
Total						48,00,000
Three 2026-27	1	CN Gujarati Medium Schools	20	20	20	32,00,000
Grand Total						1,28,00,000

Unit price is 1,60,000/- This is 3 years plan. Total cost of 80 units in all 3 phases is approximately 1,40,00,000/- including 5% each inflation and contingency.

Implementation Strategy

- **For pilot project, 1-1 class in middle school of both the mediums are equipped with the Interactive panel.**
- **Through out the year, C N Computer centre is conducting teacher's training for using Technology in Education.**
- **A team of educators are developing e –content to ensure the alignment of teacher's teaching methods for enhancement of student's learning.**
- **Creating a digital library from the open source material is also underway.**
- **Use of a suitable ready e-content will also implemented at later stage**
- **C N ERP implementation is also underway; which will make enable parents also to understand the regular progress of their ward**

Process for Digital Skill Development

- **Transforming the traditional way of teaching – learning into blended way of teaching-learning process which is meaningful, engaging and connected.**
- **Allow students to become much more engaged in constructing their own knowledge and provide them with “learning by doing” experiences.**
- **Developing teacher’s Digital Pedagogy leading to the engagement of digital generation intellectually and improving the individualized learning opportunities.**
